COMPANY BACKGROUND

TouchSkills Academy Sdn. Bhd., established in 2018, was founded with a single vision: to bridge the gap between individuals seeking meaningful careers and businesses searching for skilled talent. In an ever-evolving job market, the founders recognized the pressing need for a service that not only equipped individuals with the right skills but also connected them directly with opportunities.

With a team of seasoned experts in recruitment, training, and career development, the Academy started offering a range of services designed to empower individuals and enhance business operations. From talent acquisition and skills development to international student placement and HRDC-certified training programs, TouchSkills Academy became a catalyst for change in the local job market.

The Academy's comprehensive approach goes beyond just education. It focuses on industry-relevant certifications, placement programs, and global partnerships, ensuring that each individual is equipped with the tools to succeed. They partner with businesses and organizations to ensure that each graduate not only receives training but also transitions smoothly into a fulfilling career.

As the Academy grew, it became clear that its impact extended far beyond just providing jobs. Through its Corporate Social Responsibility (CSR) initiatives, including sustainability efforts and community development programs, TouchSkills Academy became a champion for social good, helping individuals break the cycle of poverty and unemployment.

To be the leading force in wiping out unemployment by equipping individuals with the skills and opportunities needed to build sustainable careers and brighter futures.

2.0 OUR MISSION

Through targeted skill development programs, we uplift unemployed individuals, school dropouts, and job seekers by providing them with industry-relevant skills. Our commitment extends beyond training, ensuring successful job placements that lead to long-term financial stability and career growth.

i. Empowerment

"We believe in equipping individuals with the skills, knowledge, and confidence to take charge of their futures and achieve financial independence."

ii. Integrity

"We uphold honesty, transparency, and ethical standards in all our interactions, ensuring trust and credibility with our stakeholders."

iii. Excellence

"We are committed to delivering high-quality training, career development, and job placement services that meet industry and global standards."

iv. Collaboration

"We foster strong partnerships with businesses, institutions, and communities to create meaningful employment opportunities and sustainable impact."

v. Innovation

"We embrace creativity and forward-thinking approaches to continuously improve our programs, adapting to the evolving job market and industry demands."

- **1. Talent Acquisition –** Helping Companies Find The Right Talent. Companies often struggle to find and retain the right employees. At TouchSkills Academy, we provide talent acquisition solutions, helping organizations identify, recruit, and retain top talent.
- How It Helps:
- ✓ Reduces hiring time and costs for businesses.
- ✓ Matches qualified candidates with the right job opportunities.
- ✓ Provides career coaching to ensure long-term employee success.

By integrating talent acquisition into our services, we ensure that both job seekers and businesses benefit from a streamlined hiring process.

- **2. TVET Certification** Bridging the Skills Gap Many industries require technical and vocational skills rather than just academic knowledge. Our TVET (Technical and Vocational Education and Training) certification programs provide hands-on learning experiences in various fields, including engineering, healthcare, IT, hospitality, and more.
- How It Helps:
- ✓ Develops practical skills required by employers.
- ✓ Provides an alternative pathway for those who did not complete traditional education.
- ✓ Recognized qualifications that increase job readiness and career opportunities.

- **3. Industry Placement –** Connecting Talent with Employers. Education alone is not enough—job placement is the ultimate goal. At TouchSkills Academy, we work closely with top industries and employers to place our trained candidates in real jobs.
- How It Helps:
- ✓ Ensures graduates get hired after completing their training.
- ✓ Reduces recruitment struggles for companies by providing skilled talent.
- ✓ Offers on-the-job training, increasing real-world work experience.

- **4. International Student Placement –** Opening Doors to Global Opportunities. Many students dream of pursuing higher education abroad, but navigating the complex process of applications, visas, and university selection can be challenging. We simplify the journey by providing expert guidance and support for international placement**s.**
- How It Helps:
- **✓** Expands career prospects with global education.
- ✓ Provides counseling and assistance for studying in top universities worldwide.
- ✓ Helps students access scholarships, visa support, and financial planning advice.

- **5. HRDC Training & Development –** Upskilling the Workforce. Businesses need skilled employees to thrive. Through our HRDC-approved training programs, we help companies upskill their workforce, ensuring that employees remain competitive in today's fast-changing industries.
- How It Helps:
- ✓ Helps businesses train employees in new technologies and best practices.
- ✓ Supports career growth and professional development.
- ✓ HRDC-approved programs allow companies to benefit from government incentives.

The Bigger Impact: How TouchSkills Academy is Changing Lives

At TouchSkills Academy, we focus on empowering individuals from all backgrounds—especially unemployed individuals, school dropouts, and single mothers—giving them a second chance to succeed.

- ✓ Reducing unemployment by providing job-ready training and placements.
- ✓ Helping companies find qualified and skilled workers.
- ✓ Supporting economic growth by building a skilled workforce

1.Automotive & Mechanical Trades

With rapid advancements in automotive technology, skilled professionals are needed to design, repair, and maintain both traditional and next-generation vehicles. Our programs provide hands-on training in auto mechanics, diagnostics, electric vehicles (EVs), and zero-emission technologies.

Courses Offered:

- ✓ Automotive Engineering Learn vehicle design, manufacturing, and assembly processes.
- ✓ Car Repair & Maintenance Master diagnostics, engine repair, and electrical systems for petrol, diesel, and hybrid vehicles.
- ✓ Heavy Vehicle & Diesel Mechanics Gain expertise in trucks, buses, and heavy machinery maintenance.
- ✓ **Zero Emission Vehicle (ZEV) Technology** Specialize in electric vehicles (EVs), hydrogen fuel cells, and sustainable automotive innovations.
- ✓ EV Battery Technology & Charging Systems Understand battery management, energy storage, and charging station operations.

- **Auto Technician** Repair and maintain traditional and hybrid vehicles.
- **EV & Battery Specialist** Work on electric vehicle batteries, charging stations, and renewable energy integration.
- **Hydrogen Fuel Cell Technician** Specialize in alternative fuel and zero-emission propulsion systems.
- Motorsport Engineer Design and optimize highperformance racing vehicles, including electric and hybrid

2.Augmented & Virtual Reality (AR/VR)

AR/VR technology is revolutionizing gaming, education, healthcare, and manufacturing. Our programs teach 3D modeling, game development, and interactive design

Courses Offered:

- ✓ AR/VR Development Learn Unity, Unreal Engine, and interactive environment design.
- √ 3D Animation & Game Design Master 3D modeling, animation, and game mechanics.
- ✓ Immersive Tech in Healthcare & Training Explore AR-based medical simulations and VR training programs.

- 3D Animator | Game Designer | Interactive Content Creator - Design & Animate 3D Characters for Virtual Worlds, Develop a Fully Interactive VR Game Scene, Physics & Interaction Mechanics for AR/VR Games
- Immersive Tech in Healthcare & Training- Develop an AR Medical Training App for Doctors, Create a VR Training Program for Industrial Workers, Cognitive & Psychological Applications of Immersive Tech

3. Engineering & Manufacturing

Engineering and manufacturing drive industrial growth, creating solutions for modern challenges.

Courses Offered:

- ✓ **Mechanical Engineering –** Learn design, production, and maintenance of mechanical systems.
- ✓ Electrical & Electronic Engineering Master circuit design, automation, and renewable energy systems.
- ✓ Manufacturing & Industrial Engineering Gain expertise in production processes, automation, and quality control.
- ✓Welding & Fabrication Technology Develop skills in metalwork, welding techniques, and structural design.

Career Opportunities:

- Manufacturing Engineer
- Electrical Technician
- Civil Engineer

4. Information Technology (IT) & Digital Skills

Technology is the backbone of today's industries. Our IT programs provide cutting-edge skills in software development, cybersecurity, data analytics, and AI.

Courses Offered:

- ✓ Software Development Learn coding, app development, and web programming.
- ✓ Cybersecurity Master ethical hacking, data protection, and network security.
- ✓ Cloud Computing & Networking Understand cloud solutions, IT infrastructure, and system security.

- Software Engineer
- Cybersecurity Specialist
- Cloud Architect

5.Robotics & Cyber-Physical Systems

Robotics and Cyber-Physical Systems (CPS) integrate AI, IoT, and automation to create intelligent systems used in factories, healthcare, and smart cities.

Courses Offered:

- ✓ Robotics Engineering Learn robot programming, automation, and AI integration.
- **✓Cyber-Physical Systems (CPS) –** Master IoT, smart sensors, and industrial automation.
- ✓ Mechatronics & Al-Driven Manufacturing Explore Al, machine learning, and advanced robotics.

Career Opportunities:

- Robotics Engineer
- Automation Specialist
- Civil Engineer

6. Hospitality & Tourism

The hospitality and tourism industry offers global career opportunities in hotels, resorts, airlines, and event management. Our courses focus on customer service, operations, and tourism management.

Courses Offered:

- ✓ Hotel & Resort Management Learn guest services, event planning, and hospitality operations.
- ✓ Food & Beverage Management Master culinary arts, restaurant management, and catering services.

- Hotel Manager
- Travel Consultant
- Event Planner

7. Healthcare & Nursing

Robotics and Cyber-Physical Systems (CPS) integrate AI, IoT, and automation to create intelligent systems used in factories, healthcare, and smart cities.

- ✓ Nursing & Patient Care Learn medical procedures, patient care, and emergency response.
- ✓ Medical Laboratory Technology Train in diagnostics, lab testing, and sample analysis.
- ✓ Pharmacy & Healthcare Management Develop skills in medications, health regulations, and pharmaceutical support.

 Career Opportunities:

- Registered Nurse
- Medical Lab Technician
- Pharmacy Assistant
